A groundbreaking study in colonial history, this book gives a remarkably detailed picture of life in an early American community. It focuses on three basic and interrelated subjects largely neglected by historians--population, land, and the family--as they affected the lives of four successive generations.

In the final book in the I Am Proud To Be A Jew series the children of Holocaust survivors Eidel and Dovid Levi have grown to adulthood. They each face hard trials and tribulations of their own, many of which stem from growing up as children of Holocaust survivors. Haley is a peacemaker who yearns to please even at the expense of her own happiness. Abby is an angry rebel on the road to self-destruction. And, Mark, Dovid's only son, carries a heavy burden of guilt and secrets. He wants to please his father, but he cannot. Each of the Levi children must find a way to navigate their world while accepting that the lessons they have learned from the parents, both good and bad, have shaped them into the people they are destined to become.

A New Generation Church is a church with attendees whose average age is at least as young as the average age of the community in which the church exists. Any church can become a New Generation Church that reaches and continues to reach the next generation. The Psalmist writes: We will not hide these truths from our children; we will tell the next generation about the glorious deeds of the Lord, about his power and his mighty wonders. (Psalm 78:4 NLT) No Christian would purposely hide the timeless truths of Christianity from the next generation. But often we do, not because of the substance of our church, but because of the approach of our church. For A New Generation is not about changing your church's statement of faith or core beliefs. It is about evaluating and changing, as needed, your church's programs, ministries and practices in order to more effectively connect with and stay connected with the next generation. Written for both church leaders and members, For a New Generation presents 5 practical strategies that will lay a foundation for a church to thrive for generations to come. It is based on the assumption that accepting the status quo is the greatest threat to your church's core mission and, perhaps, to the long-term survival of your church.

This is the first time in American history that we have had four different generations working side-by-side in the workplace: the Traditionalists (born before 1945), the Baby Boomers (born 1945-1964), Gen X (born 1965-1980), and the Millennials (born 1981-2001). Haydn Shaw, popular business speaker and generational expert, has identified 12 places where the 4 generations typically come apart in the workplace (and in life as well). These sticking points revolve around differing attitudes toward managing one's own time, texting, social media, organizational structure, and of course, clothing preferences. If we don't learn to work together and stick together around these 12 sticking points, then we'll be wasting a lot of time fighting each other instead of enjoying a friendly and productive team. Sticking Points is a must-read book that will help you understand the generational differences you encounter while teaching how we can learn to speak one another's language and get better results together.

Bridget Thorsdottir is a seventeen-year-old girl living during the waning days of the Norse colony in Greenland in the year 1501. At the brink of an age of discovery, her colony has been taken over by a new bishop who turned the people's farms into a more lucrative fishing village. The lone voice of opposition in this sea of change is Bridget's own father, Thor, whose stubborn adherence to his farm makes it harder and harder for him to pay the rising taxes owed to the bishop. When Thor refuses to give up his ways and leave the family home, Bridget realizes that it is up to her to make the dangerous journey to the New World in order to establish a new life for herself and her family.

In 1885, San Antonio architect Alfred Giles began buying the land that would become Hillingdon Ranch, eventually accumulating 13,000 acres near the town of Comfort in Kendall County. As the property passed to succeeding generations, the holdings got smaller, and more family members shared a stake in the ranch. Today,

dozens of Giles descendants own pieces of it, ranging in size from ten to several hundred acres. Yet Hillingdon remains a working ranch, with day-to-day operations managed by Robin Giles, grandson of Alfred Giles; his wife, Carol; their son, Grant; and Grant's wife, Misty. The cattle, sheep, and goat business they built has become a model of stewardship and sustainability. While managing family relationships can often be as complicated as managing livestock and forage, the ranch would not exist without the commitment of the large extended family, now in its sixth generation on the ranch. Hillingdon Ranch: Four Seasons, Six Generations chronicles how one family has worked together over many years to keep their ranch intact. It is also a beautifully photographed portrait of a ranching family and their life in the Texas Hill Country, where work is guided by the seasons, increasingly influenced by technology, and inevitably affected by drought. In learning about the family's successes and challenges, readers will gain a greater appreciation of what the Giles family's efforts mean to the rest of us: food, fiber, clean air, wildlife, healthy land, peace and quiet, and, perhaps most important of all, clean and plentiful water.

NATIONAL BESTSELLER • "A startling vision of what the cycles of history predict for the future."—USA Weekend William Strauss and Neil Howe will change the way you see the world—and your place in it. With blazing originality, *The Fourth Turning* illuminates the past, explains the present, and reimagines the future. Most remarkably, it offers an utterly persuasive prophecy about how America's past will predict its future. Strauss and Howe base this vision on a provocative theory of American history. The authors look back five hundred years and uncover a distinct pattern: Modern history moves in cycles, each one lasting about the length of a long human life, each composed of four eras—or "turnings"—that last about twenty years and that always arrive in the same order. In *The Fourth Turning*, the authors illustrate these cycles using a brilliant analysis of the post-World War II period. First comes a High, a period of confident expansion as a new order takes root after the old has been swept away. Next comes an Awakening, a time of spiritual exploration and rebellion against the now-established order. Then comes an Unraveling, an increasingly troubled era in which individualism triumphs over crumbling institutions. Last comes a Crisis—the Fourth Turning—when society passes through a great and perilous gate in history. Together, the four turnings comprise history's seasonal rhythm of growth, maturation, entropy, and rebirth. *The Fourth Turning* offers bold predictions about how all of us can prepare, individually and collectively, for America's next rendezvous with destiny.

The challenge facing today's church is simultaneous and effective ministry to people of four widely divergent generations. More than at any time in history, pastors must plan programs that will appeal to a mosaic of groups and subgroups. This updated edition of *Three Generations: Riding the Waves of Change in Your Church* adds an entirely new section on Bridgers, the youngest generation and perhaps the most difficult one to reach for Christ. Characteristics, interests, and values of each group—Builders, Boomers, Busters, and Bridgers—are explored in relation to the historical events and social trends that have shaped them. McIntosh thoughtfully analyzes the factors that influence each generation's relationship to the church, and he gives helpful suggestions for types of ministry and worship styles to draw members of that group. Helpful tables offer summaries of information relating to each generation, including formative experiences, religious characteristics, and methods of ministry. Pastors, church leaders, seminary professors, and students will find *One Church, Four Generations* a valuable resource in mapping out strategies for relevant church programming in the twenty-first century.

Hailed by national leaders as politically diverse as former Vice President Al Gore and former House Speaker Newt Gingrich, *Generations* has been heralded by reviewers as a brilliant, if somewhat unsettling, reassessment of where America is heading. William Strauss and Neil Howe posit the history of America as a succession of generational biographies, beginning in 1584 and encompassing every-one through the children of today. Their bold theory is that each generation belongs to one of four types, and that these types repeat sequentially in a fixed pattern. The vision of *Generations* allows us to plot a recurring cycle in American history -- a cycle of spiritual awakenings and secular crises -- from the founding colonists through the present day and well into this millenium. *Generations* is at once a refreshing historical narrative and a thrilling intuitive leap that reorders not only our history books but also our expectations for the twenty-first century.
