However, in this review guide, we actually have two top choices depending on the student's budget. First, the more economical option, which is Brown et al.'s Chemistry: The Central Science. This textbook is in its 14 th edition, which speaks volumes for the quality of the material. Its biggest strengths are the student-friendly explanations of the most essential concepts for general chemistry 1 and 2 and, its helpful practice problems, and emphasis on practical applications.
