

En 1561 Grey Cast Iron

Thank you very much for downloading en 1561 grey cast iron. As you may know, people have look numerous times for their chosen books like this en 1561 grey cast iron, but end up in malicious downloads.

Rather than enjoying a good book with a cup of tea in the afternoon, instead they are facing with some harmful bugs inside their laptop.

en 1561 grey cast iron is available in our book collection an online access to it is set as public so you can download it instantly.

Our books collection hosts in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the en 1561 grey cast iron is universally compatible with any devices to read

Equivalent standards and material grades - Iron foundry
The current ISO standard for grey iron is ISO 185 (2005), the grades being much the same as BS EN 1561. It says a lot for the extensive, world wide applications for cast iron that an ISO standard is available for it.

Cast Iron Castings BS, EN & ISO Standards

ISO 185 is not the only standard for grey cast iron. It can be ordered to the Euronorm standard BS EN 1561 where there is a very similar range of grades. There are also comparable standards in the ASTM, DIN and SAE ranges. Other national standards exist along with various trade named standards, most of which are obsolete, the exception

Steel Express supply EN-GJL-300 conforming to EN 1561 from stock throughout the UK. Our grade 300 bar can be cut to length as required. Grade 300 cast iron is a grey iron which contains graphite in the form of flakes, grey iron is more brittle than SG iron but offers good compressive strength and also good damping characteristics. In common with all grey iron grades, EN-GJL-300 has good machinability.
