The docker run command is

# Read Book Essential Docker For Asp Net Core

where we pick up the networking story. The most basic execution of an ASP.NET Core container looks something like this: `docker run -p 32767:80 imagetorun -p 32767:80` is what's called a port mapping. It maps port

# Read Book Essential Docker For Asp Net Core

80 on the container to port 32767 on the host. The host is the machine running Docker.
