'We cannot separate the writer from the writing. Nor should we try. Both our writing process and our writing products need to carry our unique signature, a bit of our personality.' - From *Writing and Personality*

How you write - what works for you and what makes sense to you - depends on who you are, your personality, your preferences, your style of thinking and feeling. If you're extraverted and grounded in your senses, your natural writing style will be far different from the person who tends to be introverted and intuitive. Not only that, how you learn to write will be different as well. Here's a book that taps into the natural strengths of your personality and helps you use those strengths in your writing. Whether you're a student, businessperson, or professional writer, this book will help you: engage your natural writing voice; adapt to styles that are less natural; overcome writer's block; and find the right words for communicating effectively, whatever your assignment.

Find your voice - and make your writing sing! You know a great literary "voice" when you hear it: David Sedaris's humorous cynicism. Elmore Leonard's weary, smart-mouthed dialogue. Nick Hornby's simple yet imaginative descriptions. It's the kind of writing you should aspire to, right? Well, not quite. Each of these authors found success in part by developing their own unique voice: a writing style that helped define their work. Now Les Edgerton shows you how to develop a voice of your own, one that rises about the literary din because of its individuality, not in spite of it! Inside, he provides guidelines, advice and dozens of exercises of recognizing and developing a natural style that will make your characters, stories and dialogues better and more memorable. You'll learn:

- How to make any piece you write unmistakably yours and your alone
- What agents and editors really think about using your own voice
- How to write better by ignoring the rules
- The keys to getting your voice and personality on the page
- How to get back the unique voice you may have lost by trying to write like someone else

Whether you write fiction, nonfiction, or poetry, *Finding Your Voice* is a must read. Editors, agents, and readers all want to read something fresh and new; by finding your voice, you'll be giving them

exactly what they want!
