A Beginner ' s Guide to Home Theater Audio

A speaker wire is the cable that is used to connect the speakers and amplifiers to your home theater system. Speaker wires have three electrical properties: resistance, inductance, and capacitance. The most important factor to consider when choosing a speaker wire is resistance. Using low-resistance wire means more power and better sound.

What Gauge Speaker Wire for Home Theater Is Ideal?

Attaching bare wire ends to a home theater receiver is a real pain. If you're going to run speaker wire inside your walls or ceiling, you'll need UL-rated speaker wire labeled CL2 or CL3. If you want to install your outdoor speaker wire underground, you'll need wire rated for direct burial.
