The legal world is changing fast, Getting more of the right clients and growing your law firm quickly, smoothly and profitably is getting harder and there is now more competition than ever before. Renowned legal marketing expert Nick Jervis unveils his 'Law Firm Growth Formula' a guide to help solicitors get and keep more clients.

The last ten years have been a period of extraordinary change for law firms. The rapid growth of corporate law firms and the emergence of global mega-firms have strained the traditional partnership model of management. Some managers of law firms are appalled at the creeping 'corporatism' that they fear may result. However a growing number believe that it is time to move on and adopt more contemporary forms of structure and management. In *Managing the Modern Law Firm* scholars and legal practitioners examine the latest insights from management research, to enable law firms successfully to meet the challenges of this new business environment.

*STOP/BACK UP/GROW* is based on the idea that personal growth is easy and doable, provided the reader is willing to make changes and "back up" to do the "pre-work" that is required. The book describes invisible barricades to growth, strategies to discover personal belief systems and practical techniques to help readers make changes required for growth. Readers gain more awareness of their current situations, learn to take ownership of their lives - and create a motivational roadmap for growth, empowering them to take whatever action is necessary to succeed and move forward. *STOP/BACK UP/GROW* really is as easy as falling down and this book is a great fit on the bookshelves of businesspeople and entrepreneurs, but it also belongs in the hands of anyone ready to move forward in a purposeful and meaningful way.

Avoid legal pitfalls for your business from day one A common characteristic of entrepreneurs is the attitude: “I’m not going to do that until I absolutely have to.” And it’s understandable why: with limited time and resources it seems logical to focus on tasks like product development, production, marketing, and delivery—the ones that get your product or service out into the marketplace. The last thing you want to do is spend money and effort on legal issues, which is why they often drop to the bottom of the pile. But this can be a costly mistake—and Go Legal Yourself is here to make sure it’s one you avoid. Attorney, inventor, and businesswoman—named Top Woman Entrepreneur by LA Dreams Magazine in 2017—Kelly Bagla knows about doing business from both the entrepreneurial and legal sides of the fence. And in Go Legal Yourself, she guides you through the four key legal lifecycle phases every business experiences—and sets you up for worry-free success from day one. Establish yourself as the correct legal entity Gather and complete the relevant documentation Protect your brand Identify and avoid common (and expensive) pitfalls Plan and manage growth, enter new markets, and keep a sharp competitive edge Wherever you are with your business, this book is your guarantee you have all your legal ducks in a row—and that no nasty legal surprises stand between you and your target: success.

This friendly and accessible guide is one that you'll want to have on hand at every stage of the journey when starting your own law firm. From initial planning and choosing the right structure, overcoming teething problems, to expansion and beyond, in this book you'll find the practical guidance you need to set up and manage a law firm.
