Keppel LeTourneau

R. G. LeTourneau, also the founder of LeTourneau University, founded R.G. LeTourneau, Inc. in 1929 in California as a contractor of earthmoving equipment. LeTourneau manufactured products in Longview, Texas. During World War II, the company provided 70% of the Allies' earthmoving equipment. In 1954, it built the first jack-up drilling rig. In 1955, it made the first log-stacker machine.

LeTourneau Technologies - Wikipedia

Challenge/objectives. While in dry dock our customer's rig required refurbishment of its two PCM Marathon Le Tourneau 120 AS cranes. Due to our extensive experience in major crane refurbishments they requested that we submitted a bid for the work and we were awarded the contract.

Refurbishment of two PCM 120 AS cranes

LeTourneau Technologies is based in Texas and has had a long history in earthmoving equipment stretching from when the company was founded by R G LeTourneau in the 1920s. The most popular rubber-tyred front loader made by LeTourneau is the L-1850. It is designed for use in mining and quarrying operations where it can be efficiently matched with trucks in the 190-320 ton range.

TWH 082 Le Tourneau L-1850 55yd Cranes Etc Review

A LeTourneau straight dozer is mounted to the Caterpillar D7 located in front of the Local 150 of the IUOE in Merrillville, IN. The bulldozer on this D7 is a straight blade and cannot be angled. The LeTourneau designation for this type dozer is WEK7. The designation for an angle dozer mounted on a D7 was WCK7.

RG LeTourneau in World War Two

Cranes In creating Allrig, we combined the forces of some of the best independent energy service companies in the world. As a result, Allrig is able to offer rig and plant owners a one-stop shop service partner with a matching global footprint.

recycling old techniques. LeTourneau is as important to me as any great artist that has broken down barriers. The operation of a machine becomes a performance, and the building of the machine is a demonstration of what mechanical engineering can achieve in sculpture. It seems that the plans and models for sculptures with legs, such as 3 Legs, 4 ...
