Oracle Timesten In Memory Database

Oracle TimesTen In-Memory Database (TimesTen) delivers real time application performance (low response time and high throughput) by changing the assumptions around where data resides at runtime. By managing data in memory, and optimizing data structures and access algorithms accordingly, database operations execute with maximum efficiency achieving dramatic gains in responsiveness and throughput.

## Oracle TimesTen In-Memory Database

Oracle TimesTen In-Memory Database (TimesTen) is a full-featured, memory-optimized, relational database that provides very fast response time and high throughput to mission critical applications. TimesTen can be deployed as TimesTen Scaleout and TimesTen Classic.

---

## TimesTen In-Memory Database Overview - Oracle

Welcome Oracle TimesTen In-Memory Database in classic mode or TimesTen Classic refers to a single-instance database as in... Oracle TimesTen In-Memory Database in grid mode or TimesTen Scaleout refers to a multiple-instance distributed database. TimesTen provides an Operator for Kubernetes, an ...

---

## Oracle TimesTen In-Memory Database Documentation

Oracle TimesTen In-Memory Database is a memory-optimized relational database. Deployed in the application tier, TimesTen operates on databases that fit entirely in physical memory using standard SQL interfaces. High availability for the in-memory database is provided through real-time transactional replication.

---

## Oracle TimesTen In-Memory Database

Oracle TimesTen In-Memory Database is a memory-optimized relational database. Deployed in the application tier, TimesTen operates on databases that fit entirely in physical memory using standard SQL interfaces. High availability for the in-memory database is provided through real-time transactional replication.

---

## Oracle TimesTen In-Memory Database

Oracle TimesTen In-Memory Database (TimesTen) is a relational database that is memory-optimized for fast response and throughput. The database resides entirely in memory at runtime and is persisted to disk storage for the ability to recover and restart. Replication features allow high availability. TimesTen supports standard

---

## Oracle® TimesTen In-Memory Database

Oracle TimesTen In-Memory Database is a memory-optimized relational database that empowers applications with the instant responsiveness and very high throughput required by today's real-time enterprises and industries in communications, financial services, web applications, travel logistics, gaming, and more.
