Covering the latest version of this popular software, this up-to-date guide quickly shows you how to organize images for editing, adjust color and focus, apply artsy filters, add text to an image—and beyond. There's a reason Photoshop Elements 15 For Dummies is the best place to start learning Elements—it gets you up and running with this image-editing software faster than you can say 'cheese!' Get ready to explore your inner artist and add pizzazz to even the most ordinary pics with the professional tools in Photoshop Elements 15! Find simple explanations of how to handle basic image editing Get steps for giving your photos a digital makeover Create layers in your images Discover one-click instant fixes when you hit roadblocks The power and simplicity of Photoshop Elements makes it easy to produce photos worth bragging about—and this no-nonsense guide will get you there in a flash.

This book breaks new ground by doing something for digital photographers that's never been done before—it cuts through the bull and shows you exactly "how to do it." It's not a bunch of theory; it doesn't challenge you to come up with your own settings or figure things out on your own. Instead, it does something that virtually no other Elements book has ever done—it tells you flat-out which settings to use, when to use them, and why. If you're looking for one of those "tell-me-everything-about-the-Unsharp-Mask-filter" books, this isn't it. You can grab any other Elements book on the shelf, because they all do that. Instead, this book gives you the inside

tips and tricks of the trade for organizing, correcting, editing, sharpening, retouching, and printing your photos like a pro. You'll be absolutely amazed at how easy and effective these techniques are—once you know the secrets. LEARN HOW THE PROS DO IT Each year we train thousands of digital photographers and, almost without exception, they have the same questions and face the same problems—that's exactly what we cover in this book. You'll learn: The real secrets of how the pros retouch portraits How to color correct any photo without breaking a sweat (you'll be amazed at how the pros do it!) How to use Camera Raw for processing not only RAW photos, but JPEGs and TIFFs, too! (And you'll learn why so many pros like it best—because it's faster and easier) The sharpening techniques the pros really use (there's an entire chapter just on this!) How to deal with common digital camera image problems, including removing noise and avoiding halos The most requested photographic special effects, and much more! THE BOOK'S SECRET WEAPON Although Elements 10 offers some digital photography features that Photoshop CS5 doesn't offer, there are plenty of features that Photoshop CS5 has that Elements 10 still doesn't have (things like paths, Channel Mixer, etc.). But in this book, you'll learn some slick workarounds, cheats, and some fairly ingenious ways to replicate many of those Photoshop features from right within Elements. Plus, since this book is designed for photographers, it doesn't waste your time talking about how to frame a shot, set your exposure, etc., and there's no talk about which camera or printer to buy. It's all Elements, step by step, cover to cover, in the only book of its kind, and you're gonna love it!
