Mercantilism is an economic system which was associated with the rise of the nation state in Europe during the 16 th and 17 th centuries. According to this theory, an economy's success depends on the supply of funds in terms of gold and silver, and aggressive market access with their goods over the whole world.

macroeconomic theory. This book narrates the evolution of economic theory, presenting the most recent and modern developments, without glossing over the fundamental disagreements among macroeconomists on both theory and policy.

This book traces the history of macroeconomics, the evolution of macroeconomic thought, and the resulting theory and policy. The book places the various macroeconomic theories in the order in which they developed chronologically, and illustrates the similarities and differences of the models. Starting with classical economics and the Keynesian revolution, this book explores the macroeconomic theory after Keynes, open economy

addition, the book contains a liberal sprinkling of charts and diagrams so as to make the subject easily understandable and highlight its finer points. The subject matter has been organized on 'first things first' basis for its logical presentation that sustains interest. The approach of the book is examination oriented. Thus, a good number of problems and solutions have been included in its chapters. Theoretical and numerical questions have been mostly selected from various examinations. Objective type questions have been given to serve as self test by students. This is an ideal book for self study. New to this edition
