Winner of a 2008 Teachers' Choice Award! Many children, especially those with developmental delays, have trouble understanding or expressing their feelings. The result can be difficulty with anger management. Listing possible responses to situations - and the likely outcome of each one - allows the child to make informed decisions about which responses to choose (walking away vs. hitting). This book provides a guide for caregivers and then the workbook portion asks children to identify situations that trigger their anger and find appropriate ways to respond. Helpful topics include: Overview of the Exploring Feelings Program Introduction to Cognitive Behaviour Therapy Modifications to Conventional Cognitive Behaviour Therapy Affective Education Cognitive Restructuring Comic Strip Conversations The Emotional Toolbox Additional Tools for the Toolbox Social Stories Research Evidence on the Effectiveness of Exploring Feelings

A Volcano in My Tummy: Helping Children to Handle Anger presents a clear and effective approach to helping children and adults alike understand and deal constructively with children's anger. Using easy to understand yet rarely taught skills for anger management, including how to teach communication of emotions, A Volcano in My Tummy offers engaging, well-organized activities which help to overcome the fear of children's anger which many adult care-givers experience. By carefully distinguishing between anger the feeling, and violence the behavior, this accessible little book, primarily created for ages 6 to thirteen, helps to create an awareness of anger, enabling children to relate creatively and harmoniously at critical stages in their development. Through activities, stories, articles, and games designed to allow a multi-subject, developmental approach to the topic at home and in school, A Volcano in My Tummy gives us the tools we need to put aside our problems with this all-too-often destructive emotion, and to have fun while we're at it. Elaine Whitehouse is a teacher, family court and private psychotherapist, mother of two and leader of parenting skills workshops for eight years. Warwick Pudney is a teacher and counsellor with ten years experience facilitating anger management, abuser therapy and men's change groups, as well as being a father of three. Both regularly conduct workshops.

Kids need help learning how to manage their anger. Blending solid information and sound advice with humor and lively illustrations, these anger-management tips guide kids to understand that anger is normal and to learn they can express it in healthy ways. The book teaches them how to recognize anger in themselves and others, how to handle situations and emotions (loneliness, guilt, frustration, fear) that lead to or mask anger, and how to deal with the anger they feel. This revised edition addresses children's exposure to increased societal violence and includes discussion and examples of anger related to texting and social media. Young readers learn that cruelty and violence are not acceptable and there are safer, more positive ways to resolve conflicts. They also discover what to do when people around them are angry, how to get help, and how to locate other resources when they need more support.
